

**Activity:** Academy Training Sessions  
**Date:** 10/04/2021 onwards

**Completed by:** Alex Fry  
**Date completed:** 06/04/2021

Hazard	People Affected	Risk Level	Mitigation	Responsibility	Frequency
Requirement for First Aid increases danger of transmission	Individual requiring first aid, first aid staff	High	Additional PPE equipment in first aid kit to protect injured player and first aider. Space in shelter reserved for injured players while awaiting pick-up or emergency services. All player/parent guardians to remain on-site and immediately available for the duration of the session. First aiders aware of additional COVID guidelines.	Club, First Aiders	As required
Access to toilet facilities increases danger of exposure	All participants	Medium	Only one player to use toilet facility at the same time, using facemask and observing good hygiene principles. Parent/guardian to accompany child from pitch for toilet visits within the Leisure Centre.	Participant	As required
Players entering and exiting pitch increase danger of transmission	All participants	High	Clear guidelines in place for start and end of sessions. Social distancing to be observed by all family groups when delivering and collecting children. All participants will have temperature check, and be signed in on the pre-prepared register. Any participants not included on the register or exhibiting a high temperature will be denied entry.	Club	Per session
Numbers of parents/guardians and family groups attending will increase danger of transmission	All participants	High	Clear guidelines in place for sessions, communicated with all parents/guardians. At least one parent/guardian to remain on site throughout the sessions, but only players will be allowed inside the pitch enclosure. Family groups will need to remain outside the pitch enclosure, and without relying on the use of the Leisure Centre for shelter in inclement weather.	Club	Per session
Participant already infected with COVID increases risk of exposure to others	All participants	High	All players self-certifying in advance of session that they have no symptoms, and additional temperature checks conducted on entering pitch at start of session.	Club	Per session
Player develops COVID symptoms after session.	All participants	Medium	COVID procedures for contact tracing in place. Player to notify COVID officer who will notify other participants, Leisure Centre and report incident to England Hockey.	Player, COVID Officer	As required
Handling of training equipment increases risk of transmission	All participants	Low	Only session deliverers will handle training equipment before, during and after sessions. Access to kit store will socially distanced and by session deliverers only.	Session Deliverer	Per session
Total number of participants increases risk of transmission	All participants	Medium	Maximum of 30 players per session, with session being split into two groups of no more than 15 players, each using one half of the pitch.	Session Deliverer	Per session
Lack of compliance by participants increases risk of transmission	All participants	High	Participants are required to bring facemask and hand sanitiser and to observe session social distancing and hygiene guidelines. Initial failure to comply will result in a verbal warning, and subsequent lack of compliance will result in the participant being excluded from the session. Parental supervisors will be involved in this process.	Session Deliverer	Per session
Risk mitigation steps and other guidelines not applied during sessions	All participants	Medium	COVID Officer to conduct debrief with participants and session deliverer to ensure any compliance issue noted.	COVID Officer	Per session
